Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1 and 12 are rejected under 35 U.S.C. 102(e) as being anticipated by Hara et al (2003/0227768)
3. Hara et al discloses a light source (10) and a light guide plate for introducing light of the light source from a side end face to an interior and emitting said light propagated in the interior from an emitting face opposing and illuminated body (66) to illuminate said illuminate body (fig 1, 51,5), wherein a prism shape for reflecting the propagating light within the light guide late and emitting the propagating light to the

Art Unit: 2875

emitting face side is formed on the emitting face of the light guide plate (fig 1, 52); the light source has a bar (42) light guide body arranged along a side end face of the light guide plate and also has a light emitting element arranged (32) in an end face portion of the bar light guide body.

Allowable Subject Matter

4. Claims 2-9, 13-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 10-11 are allowed.
6. The following is a statement of reasons for the indication of allowable subject matter: The prior art cited does not teach the combination of the light guide as recited in claims 1 and 12 including the recitation of the prism shape being constructed by plurality projecting stripes formed on the emitting face and a slanting face portion is formed on an advancing direction side of the propagating light of the projecting stripe.
